Beavers Bend

STATE PARK

Set among the tall pines of the Ouachita National Forest in southeastern Oklahoma is a retreat as tranquil as the flowing waters of mountain streams - Beavers Bend State Park.

This scenic location sets the tone for fun, relaxation and inspiration for your next family reunion, group meeting or leadership retreat.

The Lakeview Lodge features a great hall and conference room, and each of the 40 guest rooms present a spectacular view blending earth and sky in the mirrored surface of Broken Bow Lake. Nearby, the Forest Heritage Center offers meeting space for your group as well as a museum of historical documents, antique forestry tools, and art. Forty-eight cabins and hundreds of RV and tent campsites in the park present additional lodging opportunities and invite evenings next to a crackling campfire.

Recharge your mind, spirit and soul in a pure and natural environment. Whether that means casting for rainbow trout in the crystal clear Lower Mountain Fork River, or playing 18-holes at Cedar Creek Golf Course, you'll discover many recreational options for your group.

And above all, pause long enough to appreciate the awe-inspiring beauty that will keep you returning for years to come.
