Keep the glass, clean thoroughly after use, and bring 'em back for some more. Cheers!

-A LITTLE ABOUT US-

In 2014, after years of planning and construction, Dave Monks (left) and Jerod Millirons (right) founded Iron Monk Brewing Company, bringing the first craft brewery to Stillwater, Oklahoma. With over 30 years of combined brewing experience and a shared entrepreneurial spirit, they tirelessly set out to create exciting, local, handcrafted brews.

Their first beer, the award-winning Milk Stout, was met with great enthusiasm across the state, and each beer since has found a spot in the hearts of beer drinkers far and wide.

In late 2015, Iron Monk opened the state's premier tap room to share their craft directly with brewery fans and friends.

Plans are already in the works to more than double the current production capacity, ensuring that your favorite Iron Monk beers will always be available. Thank you so much for visiting.
