CABIN ON THE LAKE – GREENLEAF STATE PARK

The Oklahoma Chapter of the Telephone Pioneers and the employees of Greenleaf State Park welcome you to the “Cabin on the Lake,” Oklahoma’s first cabin built specifically for the physically challenged. This cabin was purchased and constructed by members of the Telephone Pioneers – the Oklahoma Chapter alone has over 8,000 members and had over 135 different volunteers whom devoted their personal time and energy to accomplish this great deed. Their motto “Answering the Call of Those in Need” cannot be better evidenced than by what they have done here for you and for the great State of Oklahoma. The Cabin on the Lake has won many honors and in September of 1995 the Oklahoma Pioneers were awarded the People Who Care Award, a NATIONAL AWARD for the best project of this kind among all the hundreds of Pioneer chapters across this nation and Canada.

Our cabin was patterned after two built in the early 90s by Telephone Pioneers in Wisconsin State Parks and represents only the THIRD OF ITS KIND IN THE UNITED STATES. We have added two amenities which Wisconsin did not provide, that being a floating fishing pier and a fireplace, so your experience here is truly one of a kind.

This great project was made possible primarily by the Telephone Pioneers of America, Oklahoma Chapter, with park and regional employees providing utilities, foundation, walkways, fishing pier, construction guidance and other work. The Department of Transportation constructed the road to the cabin, with the Corps of Engineers providing invaluable heavy equipment assistance; Pioneer funds were raised by various means, including bake sales, raffles and generous gifts by various individuals, organizations and businesses.

The cabin was dedicated on September 24, 1994 and is already the most popular and asked for cabin in the Oklahoma State Park system.
