Layla's Dream

The concept of Layla's Dream was derived from my niece's desire to camp in a tent (like everyone else), yet be fully handicap accessible. Layla's Dream has a queen bed and two twin beds, sleeps four comfortably and is fully accessible via wheelchair.

Layla's Dream is like a treehouse, perched 4+ feet off the ground on a solidly built platform, with safety

rails and a safety gate. Layla's Dream is connected to a fully accessible bathroom by way of a wooden bridge.

Layla's Dream is decorated in kaleidoscope blues and white. With remote-controlled, battery-operated lanterns, lighting and fans, the four of you will sleep comfortably on the 12" queen memory foam mattress and on the 10" twin memory foam mattresses.

Located in the northwest corner of the grounds, Layla's Dream is shaded 80% of the day and is the recipient of great breezes for comfort.

Additionally, Layla's Dream is connected, via spacious patio/bridge, to Irish Spring. The two tents share a three-person porch swing.

Irish Spring

The concept of Irish Spring came from our visit to the home of our ancestors.

Irish Spring has a queen bed and two twin beds, sleeps four comfortably and is fully accessible via wheelchair.

Like Layla's Dream, Irish Spring feels like sleeping in a treehouse because it is perched 4+ feet off the ground on a solidly built platform, with safety rails, and a safety gate.

The peace of nature's sounds can be heard throughout the day. Irish Spring is connected, via wooden bridge and patio to

Layla's Dream and a fully accessible handicap bathroom by way of a wooden bridge.

Irish Spring is decorated in light greens and white. With remote-controlled, battery-operated lanterns, lighting and fans, the four of you will sleep comfortably on the

12" queen memory foam mattress and on the 10" twin memory foam mattresses.

Located in the northwest corner of the grounds, Irish Spring is shaded 65% of the day and is the

recipient of great breezes for comfort.

Pretty in Pink

This is a girly-girl's dream! Pretty in pink has three twin beds, sleeps 3 comfortably and has its very own platform. Nothing like having a campout/sleepover with your besties, with the comforts of home!

Enjoy the peace and quiet that comes from camping or laugh all night long with your best friends! Moms, bring your girls and have an all girls camping experience, without all the camping equipment! Pretty in Pink is decorated in pastel pinks and white. With remote-controlled, battery-operated lanterns, lighting and fans, the three of you will sleep comfortably on the 10" twin memory foam mattresses.

Pretty in Pink, also feels like sleeping in a treehouse, perched 4+ feet off the ground on a solidly built platform and with safety rails. You will find full bathrooms for a great shower, after a day playing in the lake/woods.

Bring a good book and curl up in a lounge chair; watch the fireflies dance through the trees; roast marshmallows, make smores, or just sit by the fire. No matter what you choose to do, Pretty in Pink will make you feel great!
