Oklahoma State Parks' Heart Healthy Trails

Oklahoma State Parks' Heart Healthy Trail program consist of paved trails and nature/hiking trails that are of easy to moderate difficulty.

These trails are marked by Heart Healthy Trail signs. Distance markers are placed at 1/4 mile intervals along the right hand side of the trail.

Welcome to Roman Nose State Park's Heart Healthy Trail

The Three Springs Loop Trail is this park's Heart Healthy Trail. This trail connects the picnic area with Big and Middle Springs and the CCC Pavilion. The trail is easy to walk and has a one-way distance of approximately 0.25 mile.

The multi-use trail located at the stables is open to equestrian, hiking, and mountain biking. This trail is approximately 2.75 miles in length and is an easy hike.

Four interconnected trails totaling approximately 8.0 miles located on the western side of Roman Nose State Park (two for hiking, mountain biking and equestrian use, and two for hiking and mountain biking only) range from beginner to intermediate skill levels and provide an additional challenge.

Lake Loop Trail: Open for hiking and mountain biking only.

Mesa Loop Trail: This trail is open for equestrian use as well as hiking and mountain biking.

Lakeshore Loop Trail: Open to hikers, mountain bikers and equestrian use.

Black Loop Trail: Starting at the southeast edge of the Lakeshore Loop, the Black Loop is a hiking and biking only trail. This trail provides more challenging terrain in and around a canyon.

Trail maps are available at the Park Office.
