

Family Fun Multi-Use Trail

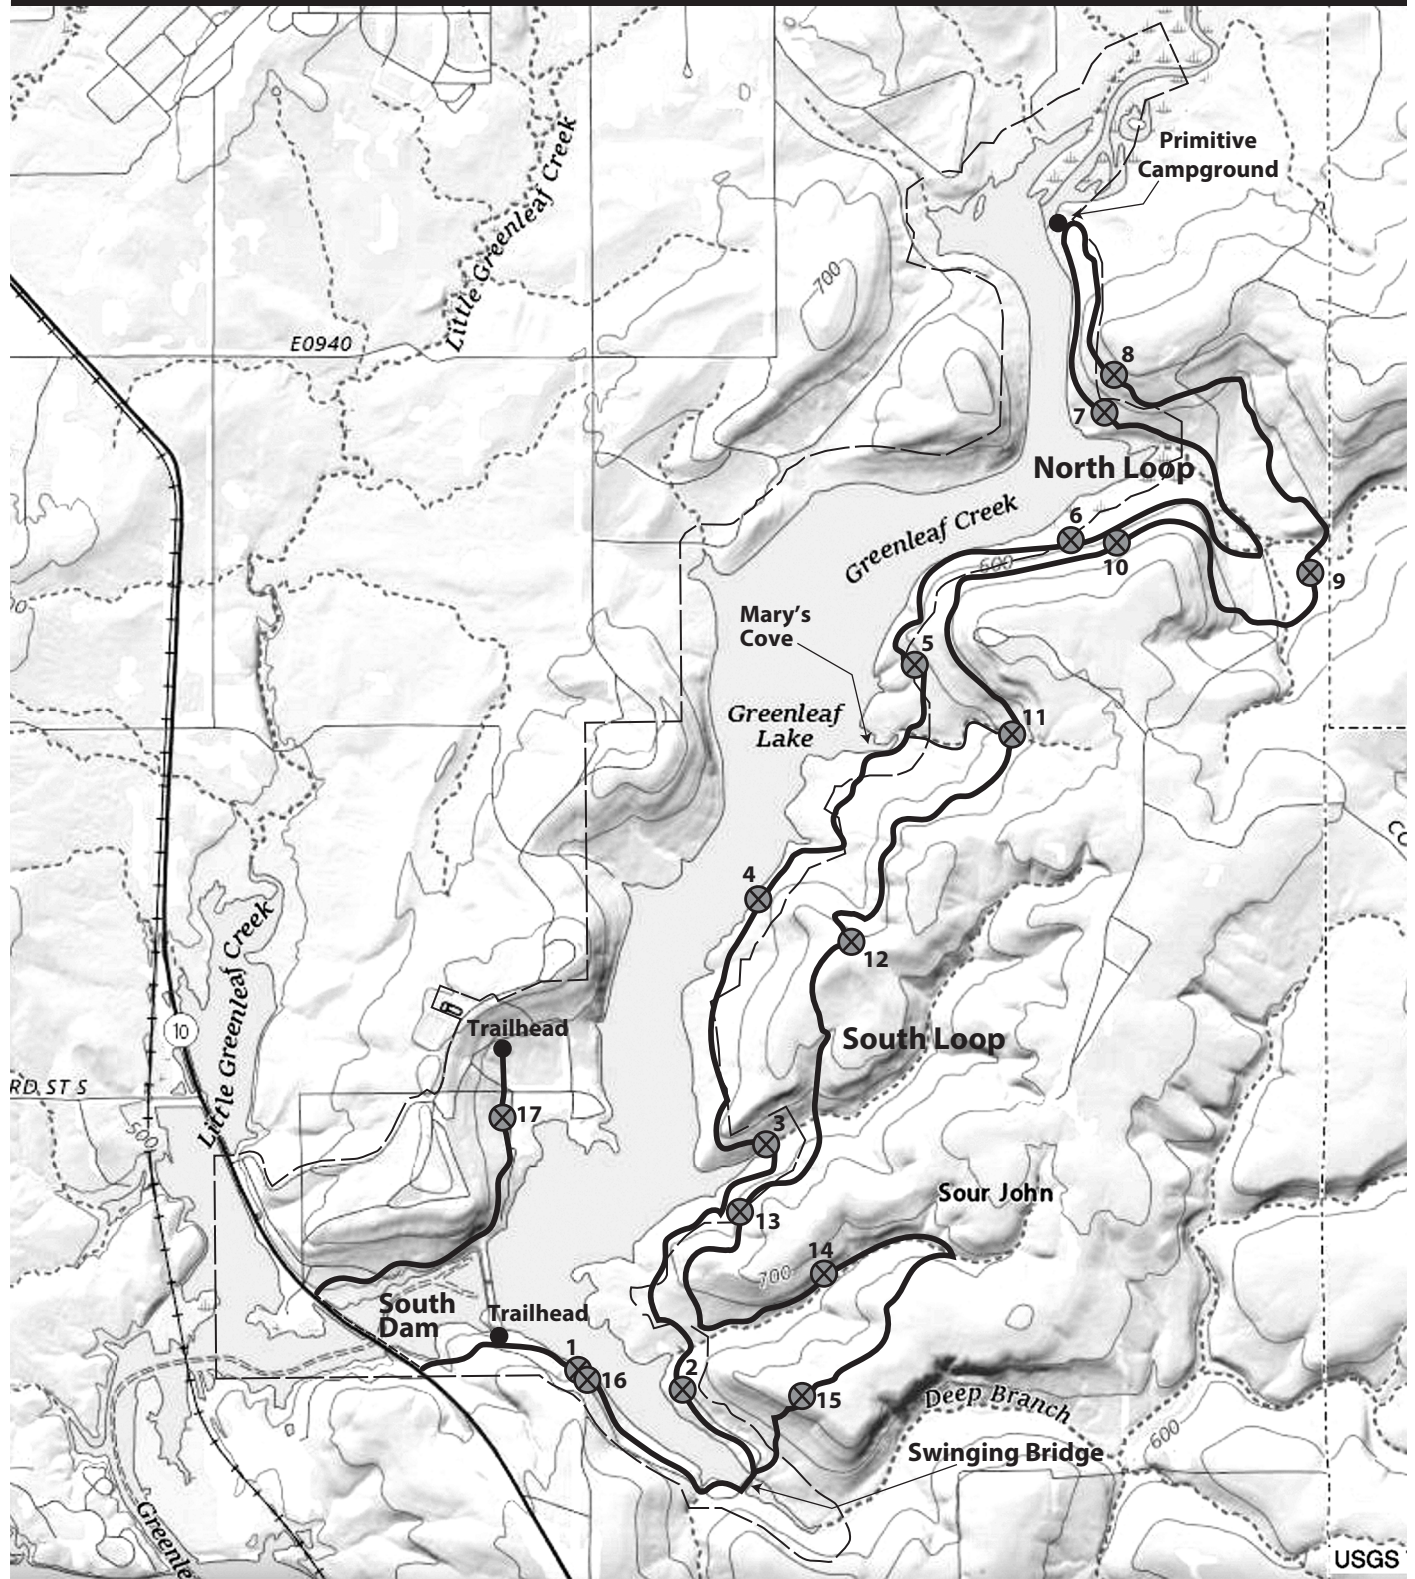

This accessible, paved trail is for walking, bicycling and roller skates/roller blades. With the exception of motorized wheelchairs, motorized vehicles are not allowed on this trail. The entire trail is approximately one mile in length.

This portion of the trail leads to a scenic view of the Arkansas River Waterway. A segment of this trail uses the campground road that serves Gobbler Ridge Campground. There are entrances to this trail from the campground.

This trail was constructed through a Recreational Trails Grant that was awarded to Greenleaf State Park in April, 2002.
